

ABOUT REGISENTINEL

RegiSentinel is a regulatory intelligence platform designed for compliance teams navigating complex regulatory landscapes. We transform fragmented regulatory content into structured, actionable intelligence—helping organizations monitor, analyze, and respond to regulatory changes with confidence and speed.

REGULATORY INTELLIGENCE REIMAGINED

WHY REGISENTINEL:

12+ regulators monitored continuously across jurisdictions, ensuring comprehensive coverage of your regulatory environment.

100K+ documents indexed and analyzed, transforming unstructured regulatory content into searchable intelligence.

OUR PROMISE

OUR VISION

To be the trusted intelligence layer between regulators and the teams who must respond—delivering clarity in complexity.

OUR MISSION

100% crawl reliability for consistent, dependable monitoring. Transform regulatory noise into actionable signals. Empower compliance teams with AI-driven insights. Bridge the gap between regulatory change and organizational response.

12+ REGULATORS

Comprehensive coverage across SEC, FINRA, CFTC, OCC, FDIC, Federal Reserve, CFPB, NFA, MSRB, PCAOB, state regulators, and international bodies.

One platform. Complete regulatory visibility.

100K+ DOCUMENTS

INDEXED AND SEARCHABLE:

Every rule, guidance document, enforcement action, and regulatory update captured and organized for instant access.

Automated monitoring with zero missed updates. Our crawlers run continuously to ensure you never fall behind on critical regulatory changes.

100% CRAWL RELIABILITY

OUR COMMITMENT

Enterprise-grade infrastructure ensures complete, accurate regulatory intelligence you can depend on for critical decisions.

YOUR ADVANTAGE

Eliminate manual monitoring burden.
Reduce compliance research time by 80%.
Stay ahead of regulatory changes. Make informed decisions with confidence.
Focus on strategy, not data gathering.

THE PROBLEM

Regulatory teams are overwhelmed. Content is scattered across dozens of sources. Updates arrive without warning. Critical changes get buried in noise.

Manual monitoring is unsustainable. Teams spend hours checking websites, parsing PDFs, and tracking changes—time that should go toward analysis and action.

Compliance gaps create real risk. Missed updates lead to violations, fines, and reputational damage.

WHY

REGISENTINEL IS DIFFERENT

THE REGISENTINEL ADVANTAGE:

Automated crawling across 12+ regulators captures every update in real-time—no manual checking required.

AI-powered analysis transforms raw regulatory content into actionable intelligence your team can act on immediately.

THE SOLUTION

UNIFIED PLATFORM

One platform replaces fragmented tools. Monitor, investigate, analyze, and verify—all in a single workflow designed for regulatory teams.

VERIFIED INTELLIGENCE

Every AI insight links back to source documents. Ask questions in natural language and get answers you can trust and verify.

100K+ documents indexed.

100% crawl reliability.

Enterprise-grade security.

MORNING SIGNAL

Start every day with clarity. Morning Signal delivers a curated digest of overnight regulatory developments relevant to your business.

Automated monitoring across 12+ regulators ensures you never miss critical updates. Prioritized alerts highlight what matters most to your compliance team.

DATA CATALOG

CAPABILITIES:

Instant access to 100K+ regulatory documents with intelligent search and filtering.
Organize, tag, and track documents across jurisdictions with automated categorization.

AI-powered analysis extracts obligations, deadlines, and compliance requirements automatically.
Transform dense regulatory text into structured, actionable insights.

REGULATORY INTELLIGENCE

KEY FEATURES

Natural language queries across your entire regulatory corpus with source citations for every answer.

ASK & VERIFY

Ask complex compliance questions in plain English.
Receive answers with direct source citations.
Verify interpretations against original documents.
Build institutional knowledge with saved queries and shared insights.

OBLIGATIONS LAYER

Extract and map regulatory requirements to your specific business context.

Automatically identify compliance obligations from regulatory text.

Map requirements to internal policies and controls. Track obligation status across jurisdictions. Generate compliance checklists and gap analyses.

IMPACT LAYER

KEY CAPABILITIES:

Understand what each regulatory change means for your specific operations, products, and risk profile.

Assess business-specific implications with AI-powered analysis tailored to your operational context.

ENFORCEMENT LAYER

TRACK ACTIONS

Monitor enforcement actions, fines, and regulatory decisions to understand how rules are actually applied in practice.

LEARN FROM OTHERS

Track enforcement trends by regulator and violation type. Analyze penalty patterns and severity indicators.

Benchmark against industry peer actions.

Extract lessons learned from enforcement outcomes.

MONITOR

Track regulatory updates across 12+ agencies in real-time. Automated crawling ensures 100% coverage of new rules, guidance documents, and enforcement actions. Never miss a critical update that impacts your business.

INVESTIGATE & ANALYZE

DEEP-DIVE INTO DETAILS:

Filter and prioritize updates by relevance to your specific regulatory obligations and business lines.

AI-powered analysis extracts key obligations, deadlines, and compliance requirements automatically.

VERIFY & ACT

VERIFY

Cross-reference AI insights with source documents. Ask questions and get cited answers you can trust.

ACT

Transform insights into action with confidence. Assign tasks to team members. Track compliance deadlines. Generate audit-ready reports. Integrate with existing GRC tools.

BEFORE REGISENTINEL

Manual monitoring across multiple regulator websites
Hours spent searching for relevant updates
Fragmented information in spreadsheets and emails
Reactive compliance approach
Risk of missing critical regulatory changes

BUSINESS IMPACT

AFTER REGISENTINEL:

Automated daily briefings delivered to your inbox
Instant search across 100K+ documents

Centralized regulatory intelligence platform
Proactive compliance with AI-powered insights

THE BOTTOM LINE

TIME SAVINGS

Reduce regulatory monitoring time with automated intelligence gathering.

RISK REDUCTION

Never miss a critical update with 100% crawl reliability across 12+ regulators.
Transform reactive compliance into proactive strategy.
Empower teams with verified, actionable intelligence.
Scale regulatory coverage without scaling headcount.
